## PRODUCT CLEARANCES

These refrigerators are equipped with a 3-position door stop. The factory set $115^{\circ}$ door swing can be adjusted to $90^{\circ}$ if clearance to adjacent cabinets or walls is restricted.

Allow minimum clearances for Freezer door (Dimension A) and Fresh Food door (Dimension B) for a full $130^{\circ}$ door swing and to allow for drawer removal.
$45 / 8^{\prime \prime}$ minimum clearance is required when door swing is adjusted to $90^{\circ}$. If the $90^{\circ}$ door stop position is used, drawer access is maintained, but drawer removal is restricted.
